epidemiology {ep-Ã-Ã-de-ol-o-je} 1. the study of the relationships of the various factors determining the frequency and distribution of diseases in human communities.

Epidemiology â€“ Virginia Department of Health

Epidemiology Section. Public Health Epidemiologists work to understand the causes and effects of disease in communities. By studying the factors and relationships that determine the presence, numbers, trends and distribution of diseases, we can more effectively reduce health risks in our communities and respond to outbreaks of disease.
